# HE Student Support Seminar 2018

### Book out your diary for 21-23 March 2018

Our annual seminar allows Higher Education Providers (HEPs) and The Student Loans Company (SLC) to come together to share insight and knowledge on the student finance system and how it interacts with the student experience of education.

By considering both the current system and the changes for AY 2018/19, we will improve how we collaborate to fulfill the needs of all students. In AY 2018/19, the complexity of new products, the pressures to respond to change and the practicalities of delivering efficient and effective administration systems, make this working together an essential requirement.

Throughout the duration of the seminar you will have the opportunity to attend a comprehensive range of workshops, discussion groups and plenary briefings, meet and discuss plans with SLC staff from across all our services and share best practice with your peers from HEPs across the UK.

### Benefits of Attending

This year's programme will provide delegates with an in-depth awareness of the new finance products for undergraduate and postgraduate students. Together, we will develop and share best practice arrangements for applications, attendance management and payments and explore the policy and publicity requirements which ensure students receive the right support.

The seminar will generate an invaluable plan of actions and ideas for further improving and enhancing the student finance systems.
