Register and book your place now!

This is an opportunity to share knowledge and gain a detailed insight in the operational policy, systems and resources that support Advanced Learner Loans. SLC and the Education & Skills Funding Agency are seeking to optimise provider interaction and preparation for AY 2018/19, considering operational and funding policy, system administration, recruitment good practice and government regulatory policy.

Come along and meet the Learning Provider Services teams and the ESFA's Provider Management group who will be on hand, with other colleagues, to provide information and support. The seminar also provides an ideal opportunity to meet with other providers to explore and share good practice.

Who should attend

- Staff and managers at Learning Providers approved to deliver loans, with administration responsibilities, working with the SLC systems or with a learner-facing role, would benefit from the wide range of subjects covered.
- Staff from careers advice, admissions and outreach, who will wish to incorporate loans information and guidance into their recruitment activity.

Benefits of Attending

This seminar will provide delegates with:

- An opportunity to participate in interactive workshops designed to generate ideas for best practice and continuous improvement.
- Updates from the Education & Skills Funding Agency (ESFA) via the plenary and workshops.
- Learning Provider marketing best practice to encourage learner applications.
- Use of the Learning Provider (LP) Portal financial reporting functionality to support monitoring of loan allocation and growth requests.
- A full understanding of the policy on student eligibility and entitlement which will enable all partners involved in information and guidance to provide clear funding information to new and continuing students.
- One-to-one 'surgery time' with our Service Delivery Account Management and Partners Support Desk team.
- This seminar is a training opportunity which can contribute to your personal development.

Advanced Learner Loan

Workshops summary

The workshops are interactive sessions with a chance to share experience, knowledge and best practice as groups, and will also include an opportunity for us to gather your feedback for input into future continuous improvement opportunities.

Working with the ESFA

The ESFA will provide details of their management of the funding allocation process, and the processes for changing allocations to reflect growth requests and under spends. Learning Providers will benefit from increased insight in successful allocations and growth requests.

Financial Reporting – Monitoring Your Loan Allocation

This workshop will provide details of the new Payment Instalment Report and other financial information including how it should be used to monitor your payments and your loan allocations to support growth requests.

Marketing Courses and Publicising Loans

With no national publicity campaigns for Advanced Learner Loans, SLC's Funding Information Services team will look at loans publicity, best practice, and the SLC resources available to support this activity.

Administering Excellence – A Learning Provider Perspective

This workshop will give delegates an opportunity to ask questions of a panel of Learning Providers from Colleges and Independent Training Organisations. The areas of discussion could vary from differing topics such as business models, recruitment strategies, operational delivery, and administration of Advanced Learner Loans.

To enable the Administering Excellence - A Learning Provider Perspective workshop to be as interactive as possible, please submit any questions you would like to ask or discuss in advance of the workshop. **Please note:** You will be asked for questions and areas of interest regarding the administration of Advanced Learner Loans when you register for this workshop.

Managing Further Education Partners' Enquiries

Our Partners Support Desk is your primary contact for all enquiries. In this session we will explore the common reasons for Learning Provider contact, the answers to those questions and the available resources to self-serve.

We will also look at how we process complex queries that require detailed investigation and will provide an update on service improvements made in the last twelve months.

Managing the Administration Process

This workshop will consider the end-to-end administration process, examining the need for the monitoring of missing evidence and NINOs and the impact this has on the student's applications.

We will explore the cost of late attendance confirmations and withdrawal / suspension notifications from a Learning Provider and SLC perspective, and how this can be minimised or prevented

Customer Services

SLC's Operations teams will provide delegates with detailed information on systems, processes and learner contact resolution practices. Topics will include the learner's online applications and self-service system, and contact management systems, Delegates will be more informed about how SLC handles the learner interface.
